PREVENTING POST-OPERATIVE COMPLICATIONS

OBJECTIVES
1. Analyze the regulatory issues and standards driving changes in peri-anesthesia practice.
2. Explain new protocols emerging as evidence-based practice.
3. Differentiate the pharmacology and physiology of frequently-used induction, inhalation, neuromuscular blocking, and reversal agents used in the peri-anesthesia setting.
4. Evaluate the key elements involved in medical malpractice.
5. Analyze effective pain management documentation.
6. Demonstrate why certain populations pose challenges in the peri-anesthesia setting.
7. Develop appropriate management strategies for acute pain in the post-operative setting.

PeriAnesthesia Nursing Care: A Bedside Guide for Safe Recovery

By: Daphnie Stannard, RN, Ph.d., CCRN, CCNS, FCCM; Dina A. Stoddard, RN, MPH, CPAN; Nancy McGushin, MSN, RN, CNL, CPAN

PeriAnesthesia Nursing Care: A Bedside Guide for Safe Recovery is a key reference for clinicians practicing in perioperative areas, phase I and phase II PACU nursing areas, and nurses working in critical care, OB, and other specialty recovery units. Ideal for peri-anesthesia nursing students enrolled in perianesthesia cross-training courses, this text is beneficial for all those caring for pre-and post-anesthesia patients. Divided into sections that cover the lifespan, this text first focuses on core concepts applicable to all peri-anesthesia patients and families, the second is population specific, and the third concentrates on particular surgeries and procedures that follow body systems.

MARKETING: PRACTICES CLINICAL NURSE SPECIALISTS, INC. is accredited as an provider of continuing education activities in the American Nurses‘ Board of Certification, Inc. This seminar is approved for 5.7 contact hours. To obtain contact hours, you must watch the entire video and pass the post-test. To register online, please call 800-844-8260. To order the seminar please contact your local sales representative. To determine your continuing education needs, log onto our website at learningcenter.onlineneuralabs.com.
