Objectives

- Apply a four-step diagnostic method process to identify and code a client’s diagnosis.
- Describe DSM-5® key symptoms and diagnostic criteria for frequently diagnosed mental disorders.
- Identify important differential diagnoses for anxiety, depressive, trauma-related, substance-related, and neurodevelopmental disorders.
- Discover differential diagnoses for children with a symptom of disruptive behavior.
- Diagnose clients with overlapping symptoms or comorbid conditions.
- Use the DSM-5® severity tables, assessment tools, and coding notes to improve diagnosis and ICD-10 coding.

CANCELLATION POLICY: If you contact us before the event date, you can exchange for a DVD or CD/Digital manual package on the subject (self-study continuing education credit may be available), a certificate to attend another seminar, or receive a tuition refund less a $30 cancel fee. Substitutions are permitted at any time.
Don't forget to bring your DSM-5 manual!
