Dyslexia, Dyscalculia & Dysgraphia
An Integrated Approach

Proven Strategies for...
- Increasing sequencing and memory
- Reading ability including instant improvement
- Handwriting
- Increasing words written
- Math skills
- Improving processing speed
- Reducing anxiety, including test anxiety
- Stopping reversals

Introduction
Dyslexia, Dysgraphia and Dyscalculia
definitions
Common causes, effective approaches
Brain development
DSM-5® - Specific Learning Disorder

Mind and Body Health
Nutritional needs for healthy brain function
Role of exercise and sleep
Stress: physical and emotional

Brain Development
Primitives
Midline - horizontal and vertical
Brain Development and Movement
VAKT (Visual, Auditory, Kinesthetic, Tactile)

Sensory Development – Auditory Processing Disorder
Diagnosis
Listening therapy
Listening devices

Sensory Development – Vision
Screening for tracking and convergence
Simple eye exercises
Irlen Syndrome – colored overlays
Vision therapy

Cognitive Development
Structured literacy and The Knowledge and Practice Standards
Skills: Phonemic awareness, memory, processing speed, attention, logic and more
Dyslexia, Dyscalculia, and Dysgraphia in the classroom
Writing an effective IEP or 504 plan
National and State Dyslexia laws
When, why, and how to introduce Assistive Technology
Hands-on activities
Create an individualized program
Create a sample plan of intervention for LD students

Brainstorm
10+ strategies for improving learning, test scores, and academic success

Objectives
1. Identify the common causes of Dyslexia, Dysgraphia, and Dyscalculia and when brain development occurs for necessary cognitive skills.
2. Explain how many professions, such as education, occupational therapy, physical therapy, nutrition, psychology and others can use an integrated approach to improve Dyslexia, Dyscalculia and Dysgraphia.
3. List the 4 underlying areas of brain development needed in order to have academic success.
4. List at least 10 different ways to improve test scores of learning disabled students.
5. List at least 3 ways to improve or accommodate for visual or auditory processing problems that may lead to Dyslexia, Dyscalculia or Dysgraphia.
6. Create a systematic plan of interventions aimed at improving the functioning of a student with Dyslexia, Dyscalculia or Dysgraphia.

Hassle-Free Cancellation Policy: If you contact us before the event date, you can exchange for a DVD or digital manual package on the subject (self-study continuing education credit may be available), a certificate to attend another seminar, or receive a tuition refund less a $30 cancel fee. Substitutions are permitted at any time.

“Dyslexia, Dyscalculia & Dysgraphia”
A Non-Profit Organization Connecting Knowledge with Need Since 1979
Dyslexia, Dyscalculia & Dysgraphia: An Integrated Approach

In this ground-breaking seminar, professionals from many different perspectives come together to learn how to integrate and diagnose some of the more complicated dysfunctions seen in education today. Remediation is addressed through the building blocks of mind and body health including nutrition and psychology disciplines, neurodevelopment, sensory-motor development from occupational therapy, physical therapy and language development. Find your own educational approaches based on Structured Literacy and the Knowledge and Practice Standards of the International Dyslexia Association will be used to demonstrate how the student with dyslexia, dyscalculia, and dysgraphia can learn reading, writing, and math.

Leave with knowledge you can implement the next day to help students in and out of the classroom:

- Improve phonemic awareness, decoding skills, and comprehension
- Strengthen executive function and written expression
- Increase writing production and comprehension
- Learn when and how to assist technology
- Improve math sense
- Reduce test anxiety
- Increase processing speed
- Improve memory

This program combines lectures, with discussion and hands-on exercises to facilitate every learning style!

Speaker

PAULA MORAIN, M.Ed., is an international author, teacher, and speaker. She has been a classroom teacher and tutor for elementary grades, high school, and college students, as well as a university adjunct, mentor, coach, and adult educator in teacher training programs in the U.S., Germany, and Scotland. She has lectured widely in the U.S.

Seminars on CD or DVD Package:
You can purchase a self-study package on the subject. You will receive a set of CD or DVD that is the digital copy of the lecture. You are required to purchase CE hours for a nominal fee. To determine if homestudy credits are available for your profession, go to www.pesirehab.com or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. Order today by using the order form on this brochure or by calling 800-844-8260.

Speakers

COUNSELORS • Social Workers • Psychologists • Speech-Language Pathologists Teachers • Occupational Therapists • Occupational Therapy Assistants Other Helping Professionals that Work with Children

The Seminar on CD or DVD Package are: $99.99. For live seminars that include CE credits: $199.99 standard. $15.95* the Roadmap from Learning Disabilities to Success book, available at—and FREE SHiPPiNg ! $24.95* Book各种 Social Skills for Autism, Sensory Processing Disorders and Learning Disabilities book, available at—and FREE SHiPPiNg !
