# Clinical Skills Wound Care Workshop

**You are on the front lines of providing care to patients with a variety of skin and wound conditions and play a critical role in patient outcomes.** Because of that, we have developed a comprehensive one day wound care event!

The interactive presentation of proven wound care healing strategies will teach you how to address chronic wounds. **Expand your understanding of the complexities facing the treatment of chronic wounds** and improve your assessment skills. Dr. Farrer will cover the most common seen wound care conditions which includes staging a pressure injury, tissue types, undermining, tunneling, fissure, and surgical dehiscence. Learn how to **best address bioburden, choose the best wound dressing, and when to consider tissue-based therapies.**

**Using wound care teaching models, interactive case studies, and skill labs, wound care expert, Dr. Dolores Farrer, will teach you proper wound assessment techniques.** The hands-on clinical lab adds a component to learning that will enhance your retention of skills and techniques covered. Practice identification, measurement, and the applications of various products on real case scenarios.

**Your practice will be elevated as you incorporate the current best practice standards into patient care.** Join us for this interactive learning experience!

## See what past wound care colleagues have had to say:

*"This has been the BEST wound care program I have attended. The "pearls" were awesome."*

*"Wonderful training! Dr. Farrer made the learning fun and was very engaging."*

*"The course was excellent. I only wish I had done this much sooner!"*

*"Dr Farrer helps you remember the information with mnemonics and lots of pictures in her slides. I plan on using her course manual to study for a wound care exam!"*
