

What You'll Learn...

The Polyvagal Theory & How It Drives Behaviors

The biology of safety and danger
Evolutionary changes and adaptive functions
Social engagement, fight/flight, and shutdown
The human response hierarchy for challenges
Face-heart connection – the how and why of nervous system regulation
Gestures, vocalizations, facial expressions
Polyvagal theory risks and limitations in clinical practice

Building Skills to Assess & Increase Safety

Recognize how environments trigger physiological states
Identify adaptive physiological reactions and maladaptive behaviors
Build greater nervous system flexibility:
Play as a neural exercise
Listening as a neural exercise
Attending to visceral feelings and social cues

Strengthen Self-Regulation Skills

Increase autonomic state awareness to strengthen emotional regulation
Map vagal states with writing, drawing, & mirroring
Identify social cues that initiate defensive reactions
Explore the regulation/dysregulation continuum

Establish Disorder-Specific Skills to Address Mood and Attachment

Recognize & shift characteristic nervous system states for depression, anxiety, and attachment
Soothe anxiety:
Navigate the sympathetic response
Escape the tiger!
Enliven from depression:
Engage with awe, experience wonder
Savor moments and states
Repair attachment to self & others:
Belongingness treasures
Explore the face/heart connection

Objectives

1. Analyze how the Polyvagal Theory expands therapeutic knowledge and treatment concerning trauma, anxiety, depression, and social engagement disorders.
2. Compose everyday language to better explain the Polyvagal Theory helping clients understand their symptoms and increase their motivation.
3. Assess client states of threat, risk, and safety and identify effective polyvagal interventions.
4. Integrate therapist co-regulation tools designed build the client’s self-regulation capacities.
5. Apply interventions to enhance self-regulation, support internal calm, increase feelings of safety, and increase social engagement.
6. Utilize awareness-based approaches to strengthen resiliency.
7. Employ contemplative practices that strengthen the client’s capacity to shift their nervous system to better manage physiologic responses.

Negotiate Trauma Treatment - Explore Abuse and Neglect Responses

Name defense strategies of fight, flight, and immobilization
Highlight adaptive functions of immobilization, fight, & flight
Label defense reaction behaviors
Repattern social withdrawal & shutdown responses

Recognize Autonomic States & Strengthen Resiliency Through Contemplative Practice

How contemplative practices enhance nervous system responses
The five senses & the polyvagal system
Build present moment & witnessing skills
Autonomic meditations
Gentle movements and interoceptive awareness
Titrate movement into stillness
Tone the vagal nerve with breath, sound, & imagery

Expedite Recovery, Increase Well-Being – The Polyvagal Therapeutic Container

Co-regulate with the client
Recognize, Reach, Resonate, Regulate
Conclude the session with a return to social engagement
Yawn and stretch
Body calming
Evoke safety through room & exterior design

Returning to Practice Integrating a Polyvagal Approach

Establish relational reciprocity & repair skills
Perfect Nurturer Imagery
Syncing the breath
Build relationships with self and others
Self-compassion practices to fuel empathy
Connection through compassion

Live Webinar Schedule

(Times listed in Eastern)

8:00 Program begins

11:50-1:00 Lunch Break

4:00 Program ends

There will be two 15-min breaks (mid-morning & mid-afternoon).
Actual lunch and break start times are at the discretion of the speaker.
A more detailed schedule is available upon request.

Polyvagal Essentials

FOR EVERY CLINICIAN:

Practical Applications for Safety,
Attachment, Trauma, and Anxiety

Many of our clients struggle to find and maintain the safety needed to face the risks and the wonder inherent in living.

The Polyvagal Theory has been termed the science of safety. This safety allows us to **regulate our emotions, process our trauma memories, and engage with others successfully.**

This work give us a psychological and physiological understanding of our shifts through mobilization, disconnection, and engagement. Dr. Stephen Porges' evidenced perspective shapes new approaches to trauma treatment, relational concerns, and mood disorders.

Your presenter, Dr. Debra Alvis, will give you the science and theory in **easy to understand language...and in an applied manner.** End the day knowing how to map the autonomic response and how to repattern the autonomic nervous system for safety.

Experiential exercises and worksheets provided in the seminar will guide you in the application of polyvagal knowledge to clinical work.

Join Debra for this exciting day of theory, research, and application. A well-seasoned and national presenter, she brings an extensive background in neuroscience, the experience of a twenty-five-year clinical practice, and a love of whole-person treatment approaches to the seminar.

Enjoy anecdotes, take in clinical scenarios designed to clarify application principles, and practice interventions with Debra's expert guidance. Return to your practice with:

- New, evidence-based approaches to replace clients' maladaptive protective patterns
- Ways to enhance your clients' capacity to connect to the self and others
- A transformational understanding of the autonomic nervous system to promote healing from trauma wounds

Target Audience:

Counselors • Social Workers • Psychologists • Case Managers • Addiction Counselors
Therapists • Marriage & Family Therapists • Nurses • Psychiatrists • Physicians
Other Mental Health Professionals

Risk Free Purchase! PESI stands by our trainings and we have a 100% satisfaction guarantee. If you are not satisfied, please contact our customer service team at www.pesi.com/info or 800-726-3888 and we will make it right.

Meet Your Speaker

Debra Alvis, PhD, is a licensed psychologist and private practitioner with over twenty-five years of clinical experience. She specializes in an integrative approach bringing together polyvagal, neuroscientific, and somatic principles to treat trauma and co-morbid disorders.

Debra discovered that the polyvagal approach facilitates a mindful awareness of the biological reactions influencing the therapist/client relationship and the client's sense of safety in the world. Integrating physiological, brain-based, body-focused approaches with traditional psychotherapeutic orientations helped clients to recover more easefully and quickly from trauma. In addition, with an increased sense of safety and connectedness, clients more frequently practiced the strategies required to move toward thriving. Debra has refined the application of this integrative model through her work in private practice and as a clinical supervisor, educator, and consultant.

Dr. Alvis developed and led the Mind/Body Program at the University of Georgia where she now teaches health psychology graduate students to apply polyvagal, neuroscientific, and somatic approaches, serves as project director for federal grant focusing on integrative healthcare, and develops mindfulness-based research studies. A thirty-year personal contemplative practice and over a thousand hours training as a mindfulness and yoga teacher further enrich her presentations.

Speaker Disclosure:

Financial: Debra Alvis maintains a private practice and receives a speaking honorarium from Asadis Training, Essential Therapy Training, Georgia Museum of Art, Bascom Museum of Art, and Mountain Area Health Education Center. She receives a speaking honorarium and recording royalties from PESI, Inc. She has no relevant financial relationships with ineligible organizations.

Non-financial: Debra Alvis is a member of the American Association of College Student Personnel, the Association for Contemplative Mind in Higher Education, the Association of Specialists in Group Work, the Athens Area Psychological Association, and the Georgia Psychological Association.

CE CREDITS AVAILABLE FOR LIVE WEBINAR

This continuing education activity is designed to meet state board requirements for the following professionals: **Addiction Counselors, Counselors, Marriage and Family Therapists, and Social Workers.**

For specific credit approvals, details, and planning committee disclosures, please see the "credit approvals and details" URL below. For speaker disclosures, please see speaker bios.

National CE Credit Approvals For Live Webinar

Credits listed are for full attendance at the live webinar only. The CE certificate can be downloaded/printed after completing the webinar, passing the online post-test (80% passing score), and completing the evaluation. Please see schedule for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

This course has been approved by PESI, Inc., as a NAADAC Approved Education Provider, for 6.0 CE in the Counseling Services skill group. NAADAC Provider #77553. PESI, Inc. is responsible for all aspects of their programming. Full attendance is required; no partial credit will be awarded for partial attendance.

PESI, Inc. is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

PESI, Inc., #1062, is approved to offer social work continuing

education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved as ACE providers. State and provincial regulatory boards have the final authority to determine whether an individual course may be accepted for continuing education credit. PESI, Inc. maintains responsibility for this course. ACE provider approval period: January 27, 2023 - January 27, 2026. Social Workers completing this course receive 6.25 Clinical continuing education credits. Course Level: Intermediate. Full attendance is required; no partial credits will be offered for partial attendance. A certificate of attendance will be awarded at the end of the program to social workers who complete the program evaluation.

Self-study credit: To check availability for your profession, go to www.pesi.com or call 800-726-3888 with your licensing board to verify acceptance of self-study credit for license renewal.

*Content and materials in this course may include interventions and modalities that are beyond the authorized practice of your profession. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your profession's standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Kids, PESI Rehab, PESI AU, PESI UK, and Psychotherapy Networker.
